# Yes, You Can Be Funny

*Laugh Your Way to Success*

## KEYNOTE AND SEMINAR OVERVIEW

A sense of humor is one of the most desirable attributes for successful business leaders in the western world. Humor can make you more likable, better your relationships with others, and strengthen your company brand. However, there is a problem! What if you are not a funny person by nature? What if you are afraid to be funny? What if nobody thinks you are funny even if you tried? No worry!

Lia was once an engineer in China without a funny bone. Now, she's a humorous speech contest winner, an expert in humorous communication, and occasionally a stand-up comedienne. She will share her 3Ws of humor with lessons learned and personal stories. You will discover the secret to bringing humor to your world while enhancing your success, fulfillment, and happiness at work and in life.
